📍 Vriddhachalam, India

Profile

Proactive Front-End Developer with hands-on experience building responsive, user-centric web applications using React, Redux Toolkit, JavaScript, and Material UI. Skilled in developing reusable components, managing application state, integrating REST APIs, and delivering intuitive, accessible user experiences. Brings practical backend experience with Spring Boot and MySQL, enabling effective collaboration across the full development lifecycle. Eager to apply strong fundamentals in front-end and back-end development to contribute to high-quality products within a collaborative engineering team.

Education

Muthayammal Engineering College
BE Electronics And Communication Engineering
Cgpa - 7.76

2022 – 2026

Internship

Software Developer Intern
Cavin Infotech

02/2026 – Present

- Applied full-stack development concepts using React, Material UI, Spring Boot, and MySQL to develop and maintain responsive web application features while gaining practical experience in modern software development.
- Developed and tested RESTful APIs using Swagger, performed database operations, debugged application issues, and adhered to industry-standard coding practices within a collaborative development environment.

Skills

- | | | | |
|--------------|--------------|---------------|---------------|
| • HTML & CSS | • Javascript | • Bootstrap | • Material UI |
| • React | • JAVA | • Spring Boot | • REST API |
| • MySQL | • Git/GitHub | | |

Personal Projects

Asset Management System (AMS)

- Developed a full-stack Asset Management System using React, Redux Toolkit, Spring Boot, and MySQL to manage asset allocation, tracking, maintenance, and lifecycle operations.
- Designed and integrated RESTful APIs, implemented state management, and built responsive user interfaces using Material UI to streamline asset management workflows.

Cine Search – Real-Time Movie Explorer

- Developed a React-based movie discovery application integrated with the TMDb API to display real-time movie information, ratings, cast details, and trailer content.
- Implemented client-side routing, search functionality, responsive UI components, and watchlist management using React, Bootstrap, and localStorage.

Certification

Fundamental Of Artificial Intelligence - NPTEL

Introduction To Internet Of Things - NPTEL

Ethics in Engineering - NPTEL
